Sensitivity Skin Tests need to be carried out 48 hours prior to a colour service. We can either do this simple test in salon or you can have a colour test to take home and put on yourself. A text reminder is sent out a few days before your visit to ensure that this test is carried out before you come in for your appointment.

Spirit reserve the right to refuse any colour service that requires a skin test, if a skin test hasn't been done, your service could be cancelled and a charge will occur.

The use of hair dyes is strictly regulated and their ingredients are approved for use in hair colour in the UK, EU and across the world. However, an allergy can develop over time so it is possible that you could have an allergic reaction even if you have not had one in the past. Therefore, we require all clients to follow our allergy testing procedure. For further information, please speak to one of our technical team who will be happy to advise.
